Hi Brian --

I am seeing several surveys with no year stated for the date. Since the others in the pile say "2012" should I assume that that is the right year for all? I have been entering 2012 and highlighting the cell, however if that is a safe assumption I can just make the call going forward.

Please advise, thank you!

Andrea

Andrea,

I've attached the new survey spreadsheets (identified by the year 2011) for you to work on and I've also included last year's completed spreadsheets (identified by the year 2010) as references. If you have any questions, let us know. And thanks for helping out!

Brian
